Registered Company Name	Delviom LLC
Year Incorporated	2004
State of Incorporation	Virginia
Corporation Type	Limited Liability
D-U-N-S Number	016225721
CAGE Code	6RDB9

## Delviom Case Studies - Federal/Commercial

### U.S. Department of Agriculture – Natural Resources Conservation Service (NRCS)

**Customer's Challenge:** Implementation of Vulnerability Management Program

**Delviom's Solution:** Delviom worked with USDA NRCS OCIO to implement their Vulnerability Management Program. Delviom helped build, setup and deploy the Enterprise Scan Infrastructure and associated tools. Delviom also led the setup of a security test lab as an Application Security **Center of Excellence**.

**Outcome/Benefits:** The program gave USDA NRCS the ability to rapidly detect and mitigate vulnerabilities during the development lifecycle.

### U.S. Department of Agriculture – Rural Development (RD)

**Customer's Challenge:** Implementation of Secure SDLC

**Delviom's Solution:** Delviom worked with RD OCIO to provide Security Architecture & Engineering services, Privacy support and Vulnerability Assessments. Delviom set up the framework and implementation of a Secure SDLC that included Baseline Security Requirements, Stage Gates, Secure Design and Architecture reviews and Vulnerability Assessments. We also worked on the Quality Assurance team to provide Test Automation services.

**Outcome/Benefits:** This provided the client a true picture of code security and allowed Security to be plugged into all aspects of the SDLC.

### CIT

**Customer's Challenge:** Implementation of Red Team Program

**Delviom's Solution:** Delviom worked with CIT Cybersecurity Division to set up an "end to end" Red Team Program. This included setting up a PMO office to manage the Red Team which included program objectives, governance, policies, and SOPs. Delviom worked with CIT to define the methodology, rules of engagement and attack surface following which red team exercises were successfully conducted.

**Outcome/Benefits:** This program allowed CIT to detect vulnerabilities that were previously unknown to the enterprise and allowed them to meet compliance and regulatory requirements.

### U.S. Securities and Exchange Commission

**Customer's Challenge:** Implementation of Vulnerability Discovery, Bug Bounty and Penetration Testing services.

**Delviom's Solution:** Delviom implemented a Bug Bounty Program that covered Researcher Management, Test Management, Penetration Testing on infrastructure and systems. Further, Delviom implemented a Vulnerability Disclosure Platform to manage submissions, reporting and payments.

**Outcome/Benefits:** The program allowed the involvement of expert commercial security researchers via crowdsourcing which allowed discovery of previously unknown vulnerabilities.

### National Indian Gaming Commission

**Customer's Challenge:** Forensic Review

**Delviom's Solution:** In October 2018, National Indian Gaming Commission Information Technology Infrastructure, and its associated systems (e.g. Email, File Shares, Applications, Backups and Storage) failed and caused mass outages for the agency. Delviom performed forensic analysis of the failures to provide a health review, breach analysis and recommendations for remediation.

**Outcome/Benefits:** The recommendations allowed NIGC to rectify its processes and infrastructure and take preventive measures.

### Government Publishing Office

**Customer's Challenge:** Implementation of Business Intelligence Program

**Delviom's Solution:** Delviom provided O&M Support services for the Business Objects reporting environment at GPO. Nearly three hundred Business Objects reports were developed for GPO user community to satisfy business needs. We provided technical subject matter expertise to sustain the Enterprise Reporting System. This allowed them to meet compliance and regulatory requirements.

**Outcome/Benefits:** The reports and dashboards provided exceptional visibility to facilitate decision making.
